

## **ATI Advisory Health Research and Policy Internship**

ATI Advisory (ATI) is a research and advisory services firm changing how businesses, communities, and public programs serve vulnerable populations. At ATI, we aspire to transform healthcare delivery systems, aligning financial incentives with care models that deliver flexible, individualized care to complex care populations. Our key areas of expertise are healthcare business strategy and management consulting, state and federal policy analysis, and program design and evaluation. Our work promotes investment, integration, and alignment, and helps organizations succeed. We work across many diverse sectors and stakeholders to identify and foster partnerships, create shared solutions, and move ideas into action. Some of our clients and partners include post-acute and long-term care provider organizations, trade organizations, Medicare Advantage plans, PACE organizations, policymakers, think tanks, and foundations. ATI is backed by a team of nationally recognized experts and experienced analysts.

This is an exciting opportunity to conduct research that informs policy, interact with clients, and gain business consulting experience. ATI is committed to the internship program, and several past interns have joined ATI in fulltime Analyst roles.

**ATI Advisory is currently seeking an Intern to join our company.**

### **Responsibilities:**

- Conduct qualitative and quantitative research on a diverse array of healthcare and aging services issues affecting vulnerable populations.
- Draft written summaries, Excel documents/models, and/or PowerPoint presentations to provide strategic recommendations to clients.
- Review external reports and publications and develop content expertise on a range of healthcare and aging issues. Summarize relevant findings to share internally with team.
- Provide project management support, including preparation of meeting materials, scheduling meetings, and attending meetings to keep team aligned on client feedback and next steps.
- Ensure website content is updated with news, events, and content that ATI has produced.

### **Preferred Skills and Competencies:**

- Exceptional analytical, problem solving, and quantitative skills
- Ability to synthesize research findings into relevant, concise insights
- Proficiency in Excel and PowerPoint; experience with Tableau or SAS programming considered a plus
- Ability to communicate complex ideas effectively
- High degree of professional maturity and comfortable working across multiple projects/teams
- High level of initiative, quick learning ability, and resourcefulness
- Strong organizational skills and ability to multitask
- Prior work and/or study experience in healthcare and aging services issues

## Requirements:

We will consider candidates with all or a combination of the following:

- Current graduate student pursuing degree in public policy, public health, public administration, business, statistics, economics, mathematics, or another related field.
- Interest in the healthcare field and in health and public insurance programs.

## Duration:

- 10-12-week, paid internship
- 20-25 hours per week

## Location:

Remote

## How to Apply:

Please submit copies of the following application materials to [ops@atiadvisory.com](mailto:ops@atiadvisory.com).

- Resume
- Cover letter including 2-3 academic or professional references appended to end
- Writing sample
